

CERTIFIED SAFETY
Worldwide!

SAFETY *is our*
RESPONSE-ABILITY!

PERSONAL SAFETY

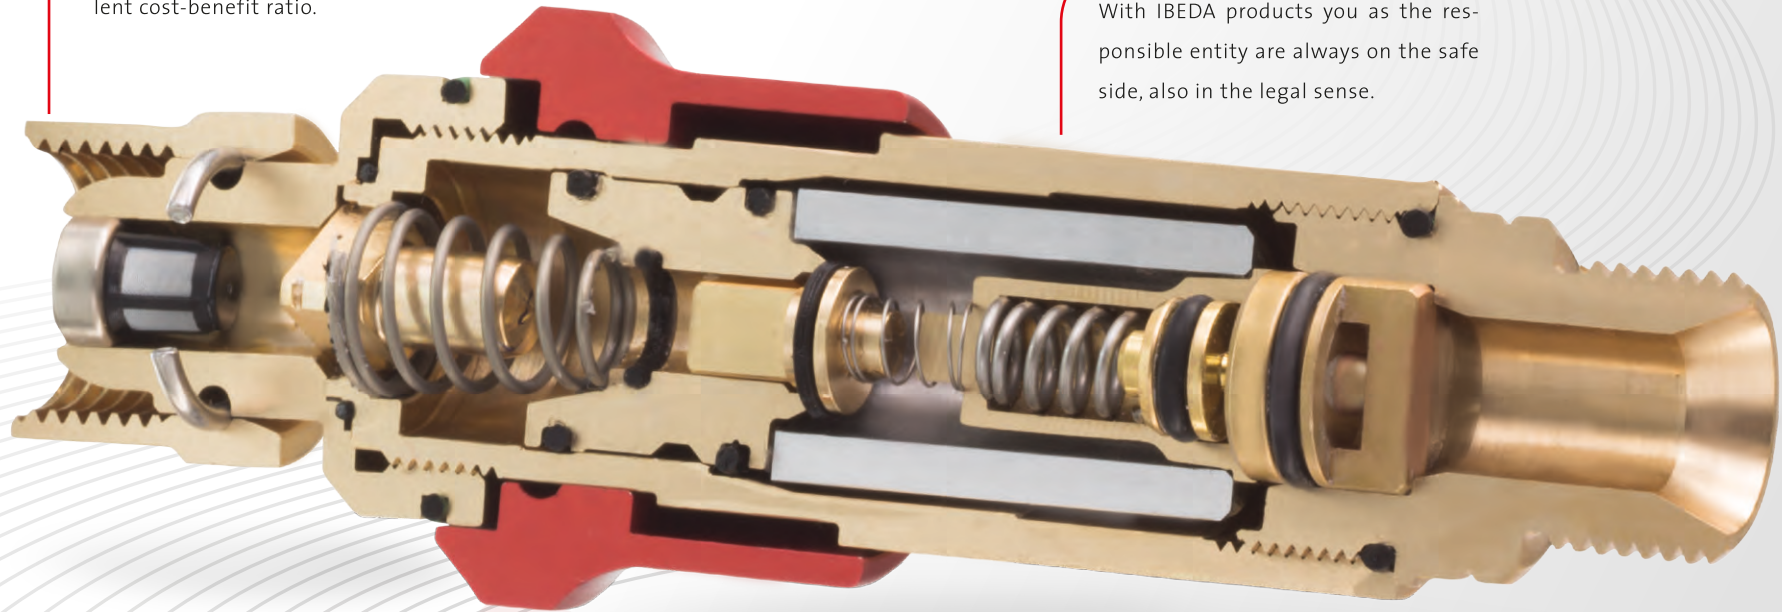

IS OUR TOP PRIORITY!

We are committed to the ongoing development of new products as well as continuing to improve our existing products. We are able to provide well-engineered and reliable safety solutions for every industrial application, all with certification!

Through continual investments in development, external specimen testing as well as in production- and testing equipment, we can warrant the highest quality of our products at an excellent cost-benefit ratio.

With IBEDA products you as the responsible entity are always on the safe side, also in the legal sense.

PRECISION

IN DETAIL

JUST WHEN IT MATTERS.

HIGHEST

QUALITY

BY ULTIMATE PERFECTION.

SAFETY IS OUR **RESPONSE**-ABILITY

The main focus in manufacture of IBEDA safety devices is not merely on the professional assembly of the individual components, but on the 100% testing of every flashback arrestor and quick-action coupling produced by IBEDA. It is this performance check that turns a fitting into a safety device.

All tests that are required are carried out by means of the especially designed IBEDA testing equipment – our guarantee for safe and reliable products!

Each flashback arrestor and quick-action coupling is subjected to a testing by means of a special Helium-vacuum leak test equipment.

This test method with Helium in a vacuum chamber can help in detecting leaks that are even significantly smaller than what is allowed.

Through these test procedures we can ensure that all **BAM-** and **UL-**approved IBEDA safety devices meet the highest quality demands that users around the world have relied on for decades.

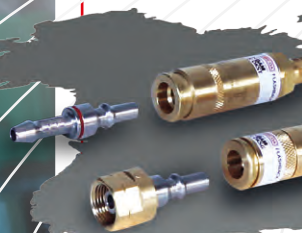

100% TESTING

SAFETY AT WORK

GUARANTEED

CHEAP GENERIC PRODUCTS ENDANGER
HEALTH AND LIFE.

IBEDA PRODUCTS PROTECT – LIVES AND INVESTMENTS

Not only the fulfilment of international, European or national standards such for Australian, South Africa, Sweden, Great Britain, U.S.A. or Germany, prove that IBEDA is one of the worldwide leading manufacturers of gas safety devices. To the constantly growing number of customers belong many well-known users and international dealers of gas safety devices. The growing export rate shows that IBEDA products prove their worth every day worldwide.

THE ONLY ONE WITH BAM CERTIFICATION FOR MANUFACTURE

The features and characteristics of the IBEDA products verifiably correspond to the respective standard specification. IBEDA is the only manufacturer of flashback arrestors and quick-action couplings proving highest product quality by a voluntary certification including production plant audit. An overview on the BAM-certified companies and products is published on the BAM website.

WORLDWIDE CERTIFIED

SECURE THE ADVANTAGES!

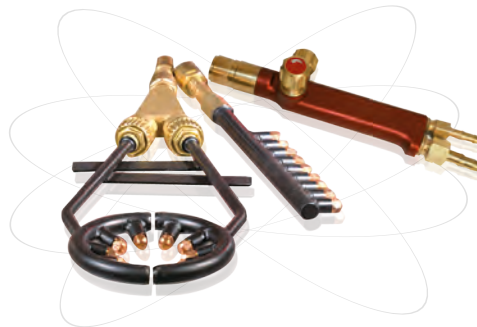

Effective synergies and new possibilities abound when you combine the IBEDA product lines of Gas Safety Engineering, Flame Spraying, Gas Manifold Systems and Autogenous Engineering.

That means: flexible, affordable, certified and safe products and production solutions from a single supplier, as well as conservation of valuable natural resources.
